INTRODUCTION

This is our tenth edition of the Directory of Agriculture for Nova Scotia. This time we are returning to our original format, with only a limited distribution, designed with the extension agriculturalist in mind, and especially the staff of the Department of Agriculture and Marketing in Nova Scotia.

This publication has received more hours of research and input than any of our previous publications, largely due to the efforts of Dave Livingstone and Elizabeth Jacquard, our summer works program employees, made available to us by the Department of Development's Assistance Program. This concentrated effort has enabled us to gather the information contained in the Directory over a shorter period of time with a more concentrated effort; thus making the Directory, when released, the most up-to-date information possible.

For Extension workers, we have added, not only new sections of purebred breeders and an expanded commercial section, but we now have all the information on data processing disks which will provide the service of extracting information for a particular need of the Extension Specialist. We are new at this computerization of information, but with the assistance of Greg Bishop, our computer programmer, and Debbie Freeman, our computer teacher, we believe we can now provide some very useful extractions of information for your use.

Dave and I want to especially thank all those who assisted by supplying critical information for this publication. We have received excellent co-operation, all of which makes this publication unique in Canada.

If you have any questions, or updates of information for us, please feel free to call us.

Sincerely,

Fred A. Pierce, Editor

III

Laboratory Services

We have 7 labs serving the Nova Scotia Agricultural Industry

In Truro:

SOILS & CROPS LAB
—over 200,000 samples processed annually
—soil, foliar & water analysis

MILK PRODUCTS LAB
—approx. 50,000 samples processed annually, not including D.H.A.S. or R.O.P.
—tests done for water antibodies
—tests for milk composition

ENTOMOLOGY LAB
—crop insect identification
—home and garden insect identification
—bee diseases identification

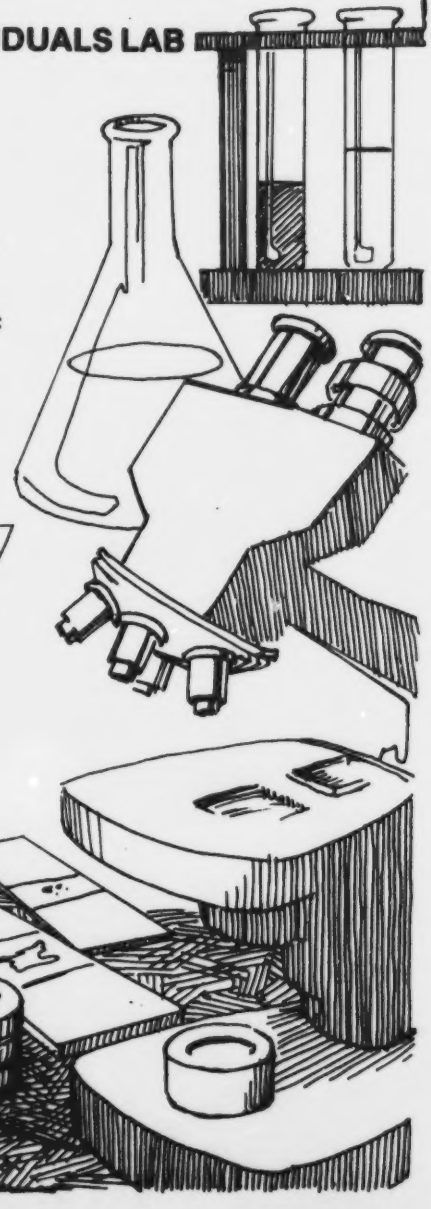
VETERINARY PATHOLOGY LAB
—approx. 300,000 samples processed annually
—feces, blood, carcasses, tissue, microbiology

In Kentville:

ENTOMOLOGY LAB
—crop insect identification

PLANT PATHOLOGY LAB
—tree fruit insect and diseases identification
—home and garden insect diseases identification

PESTICIDES RESIDUALS LAB
—250 samples processed annually
—test done only on organic type chemicals, for example:
i) soils for herbicides
ii) well water for impurities
—covering all of Atlantic Canada



Forward all samples to:

4-H Club

If you are nine - 21 years of age, you can join the 4-H Club of N.S.

—We have a Rural Youth Organization.

—We have six offices in Nova Scotia:

—Mabou
—Pictou
—Truro
—Windsor
—Lawrencetown
—Bridgewater

—We teach and develop:

—character and citizenship
—skills in Agriculture
—skills in Home Economics
—skills in natural resources
—decision making
—management
—organization and communication.

N.S.A.C. Vocational and Short Courses

Over 40 courses offered each year, including:

Vocational

Meat cutting
Farrier
Basic Ironwork
Computers
Chain Saws
Accounting
Livestock Production
—Dairy
—Swine
—Sheep
—Horse
Crop Production
—vegetables
—strawberry
—blueberry
—salad crops
—asparagus
—Christmas trees
—flower
—naval crops
—greenhouses
—grape
—gardening

Home Study Courses

Farm Safety	—$ 3
Vegetable Production	—$40
Basic Sheep Production	—$75
Chain Saw Use & Safety	—$20

Farm Skills Courses

12 month duration—No cost
On farm practical experience.

Dairy Level I & II
Swine
Sheep

Horse Care Program

10 months—tuition $1,200.

Canada Employment Assistance
Tuition and training allowances are available from CEIC for certain courses and qualified people.

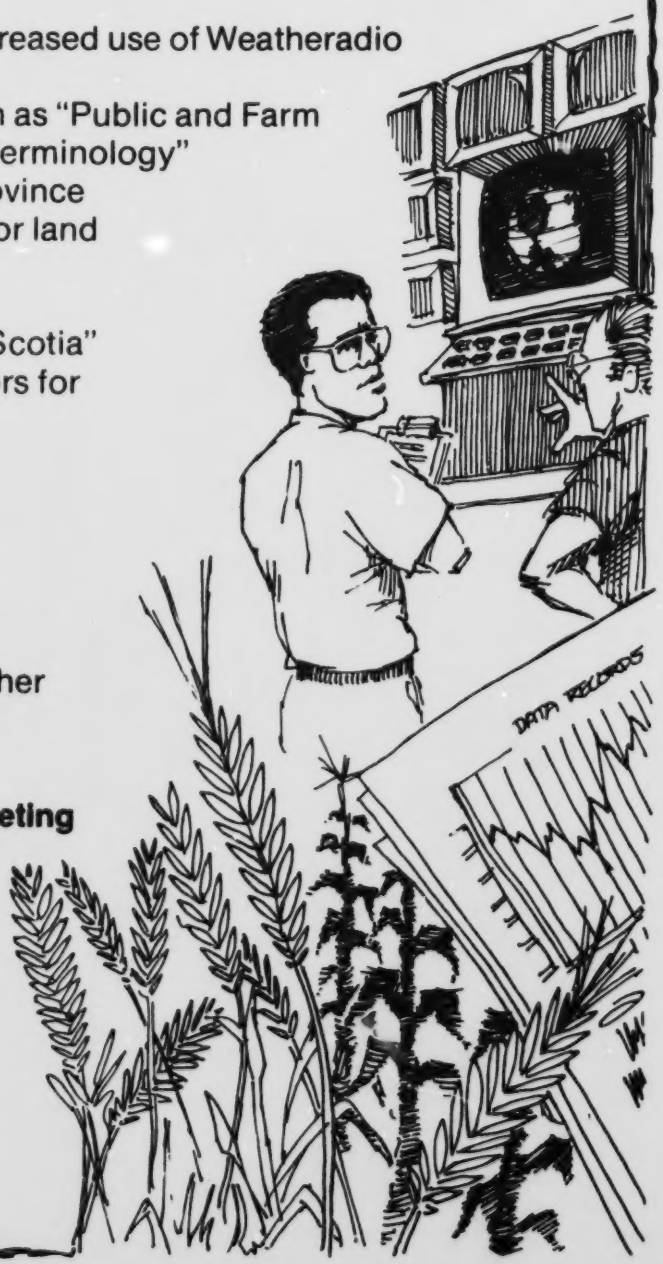
Soils and Crops Agroclimatology

Providing weather and climate related service to the agricultural community.

1. Weekly and monthly weather summaries.
2. Working with N.S. Fed. of Agriculture Farm Weather Services Committee to:
   (a) develop awareness and increased use of Weatheradio for farm forecast
   (b) producing fact sheets, such as "Public and Farm Weather Forecasting and Terminology"
3. Advice on the climate of the province or the microclimate of a place for land selection or trying a new crop.
   —publication available
   "Agroclimatic Atlas of Nova Scotia"
4. Advice on instruments or sensors for weather monitoring.



Have you a weather problem?

To obtain advice on a special weather problem, call or write to:

Peter Dzikowski, Climatologist
N.S. Dept. of Agriculture and Marketing

CREAM PRODUCERS

There were just under 200 cream producers, as of July, 1984, shipping cream to three plants - Brookfield Foods Ltd., Amherst; Scotsburn; and Tatamagouche Creameries.

The value of cream shipped from these farms in 1983 was 1.01 million dollars.

BEEF PRODUCERS

There are over 1,300 beef producers in Nova Scotia. Herds consisting of 15 cows or more are calculated at 1,269.

Nova Scotians consume well over half a million pounds of beef per week. Nova Scotia's cattlemen have a challenge to fill this demand.

N.S.A.C. Horse Program

Over 5,000 people are involved in horse programs in Nova Scotia, with an estimated equine population of 12,728 in Nova Scotia.

N.S.A.C. has had a horse program for 20 years, each year expanding the facilities and services to meet the increasing demand. The new MacMillan Show Centre is now the best equine facility east of Toronto, and, along with the dedicated staff members, offer:

Facilities: MacMillan Show Centre (Nova scotia Provincial Exhibition Grounds)

—over 16,000 sq. ft. indoor riding arena
—Horse Boarding (private and working)
—Outdoor ring
—Pastures
—Cross Country Course
—Horse rental
—Classrooms

Summer Camp

Services

—Riding lessons
—Recreational riding
—Riding for disabled
—Riding clinics
—Riding shows

Courses (N.S.A.C.)

—Horse care
—Horse law
—Buying a horse
—Draft Horse
—Farrier Training
—Coaching

For more information contact:

Al McNutt, Co-ordinator
N.S.A.C. Horse Program

STRAWBERRY PRODUCERS

The 1983 strawberry crop was estimated at 4.3 million quarts. Approximately 55% of the strawberries were sold by U-picks, 30.9% sold fresh within N.S., 4.1% was sold to other provinces and 10% went to processing.

Harvest was taken from approximately 1,000 acres.

BLUEBERRY PRODUCERS

Blueberries are the No. 1 fruit crop in the province of Nova Scotia in terms of total acreage and export sales. In 1982, provincial production was almost 14¼ million lbs. with a farm value of $8.5 million and a total value to the province's economy of over $16 million.

There are over 20,000 acres of lowbush blueberry presently in production.

TOBACCO PRODUCERS

In 1983, 16 growers grew 690 acres with the same production as 1970. The 1.6 million pounds grossed the farmers 2.7 million dollars.

Tobacco is a large source of total revenue providing 37 million dollars to N.S., and nearly 50 million to Canada.

Tobacco consumption in N.S. is 5.8 million pounds.

Nova Scotia Agricultural College

A long established and rapidly developing College of Agriculture serving Atlantic Canada.

Established in 1905 the College provides a wide variety of Technician, Technology and Degree Programs in Agriculture.

Since 1980 twenty new faculty members and a new library, classroom and laboratory space have made it possible to offer a complete degree program and dramatically increase the research effort.

Choose a career in Agriculture and prepare at the Nova Scotia Agricultural College.

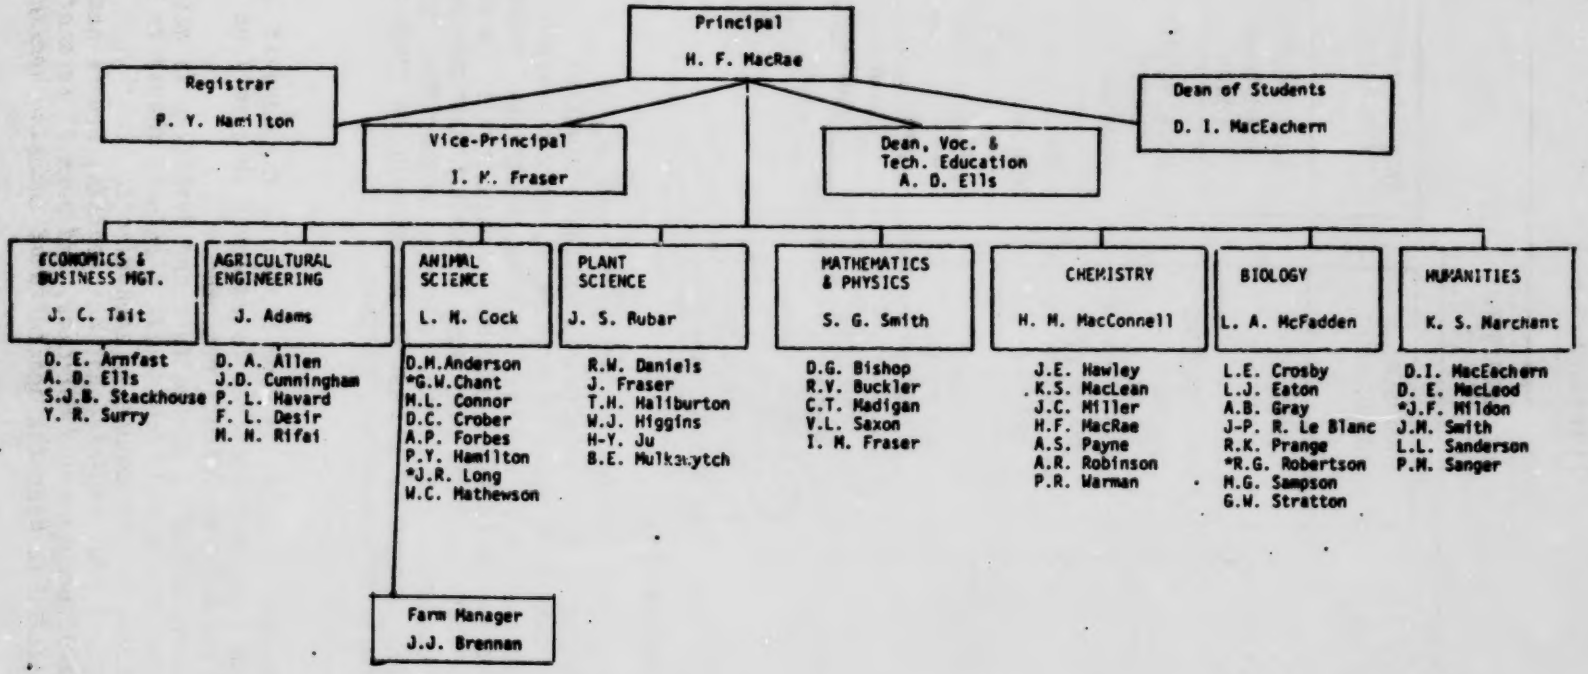
OBJECTIVE

The Agricultural Food Industry of Nova Scotia is the largest in the province. Approximately one in five Nova Scotians is employed in some food related industry and sales are over one billion dollars per year.

The Nova Scotia Department of Agriculture and Marketing is responsible for keeping this industry strong and viable with a primary thrust to maintain our 6,000 farmers, backbone of the industry, economically healthy.

The Department's 200 plus professional Agrologists, Degree-granting Agricultural College, over 50 programs and policies, and over 25 separate Acts of Legislature are directed to keep the agricultural industry healthy and expanding.

FACULTY OF THE NOVA SCOTIA AGRICULTURAL COLLEGE



THE NOVA SCOTIA AGRICULTURAL COLLEGE is the Atlantic Provinces Agricultural Training College and is supported and funded on an Atlantic Basis. Technical, vocational and degree programs are offered as well as the first two years toward a degree in veterinarian medicine or agricultural engineering.

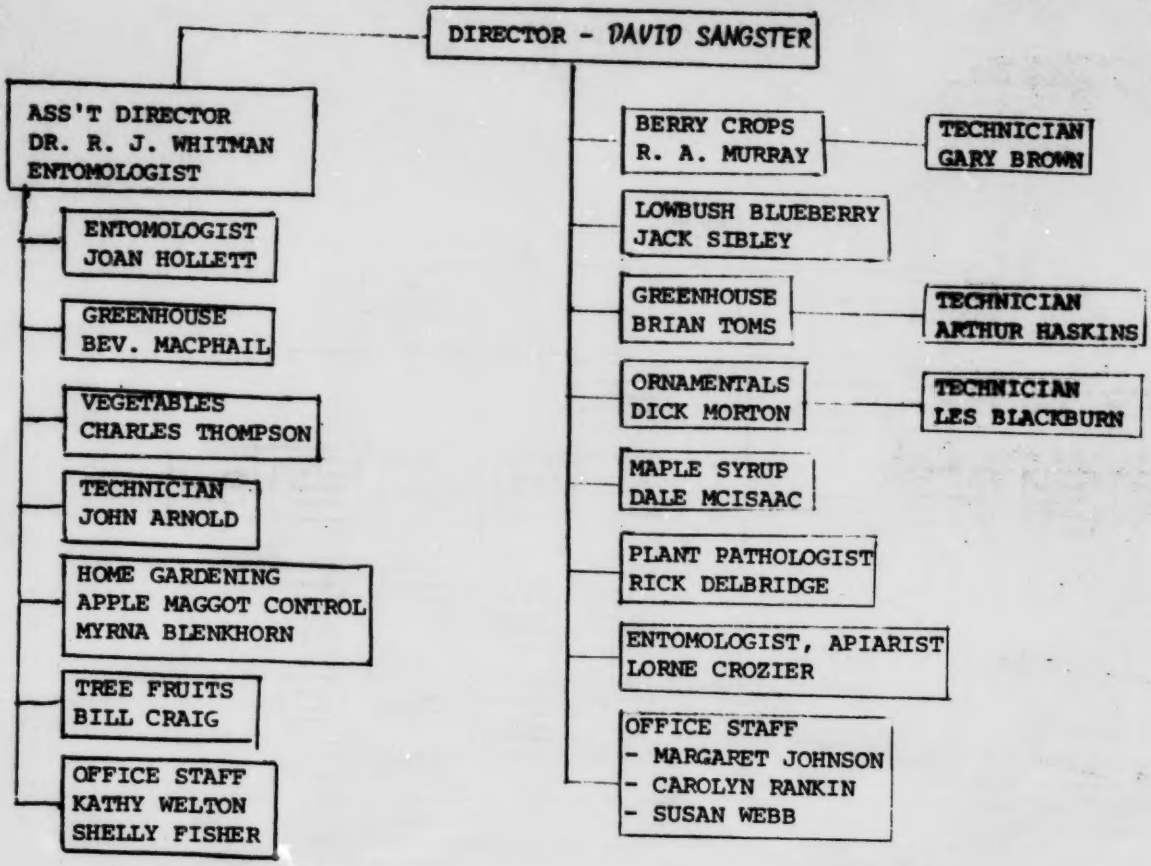
HORTICULTURE AND BIOLOGY BRANCH



THE HORTICULTURE AND BIOLOGY BRANCH PROVIDES identification, prevention and control measures for insects and plant diseases, analysis of soil and recommendations for production and management of horticultural crops and administers development incentive policies. (P. O. BOX 550, TRURO, N. S. B2N 5E3 PH 895-1571, Ext. 221).

MARKETING & ECONOMICS BRANCH

This branch assists producers, commodity groups and marketing organizations in developing and expanding markets for Nova Scotia agricultural products. It administers the Co-operative Association Act, the Natural Products Marketing Act and the regulations respecting provincial grade standard for agricultural products.

This branch provides economic analysis services for the agricultural industry. It monitors and researches developments in the industry and the economy. It collects and maintains a library of statistical data relating to agriculture and carries out and publishes statistical analysis relating to agricultural development. It provides the economic input in the development of long range policy and planning for the Development of Agriculture and marketing.

The branch administers the:

1. School Milk Program
2. Pork Price Stabilization Plan
3. Maritime Tarriff Controls
4. Price Incentive Programs of the Department.

Box 550, Truro, B2N 5E3 - 895-1571

EXTENSION BRANCH

Box 550, Truro, B2N 5E3 - 853-7497

The Extension Branch is responsible for administering programs listed below and operates fourteen district offices covering all of the province. At each location a professional agrologist or development officer is located to explain and assist farmers with the policies of the Department as well as give guidance and help in their production and marketing programs.

ENGINEERING DIVISION

This division provides plans, systems, advice and expertise of professional Agricultural Engineers for the agricultural industry and farms, maintains marshes, dykes and marshland roads according to the agreements by legislation.

Provides an engineering service for the programs contained in the Land Improvement Policy.

FARM MANAGEMENT DIVISION

Provides assistance with record keeping, analysis of records, preloan counselling, farm credit advisory advice and assistance with farm management problems.

AGRICULTURAL REPRESENTATIVE SERVICES

Administers agricultural assistance policies, provides farm managment services, offers advice and information on Department programs and policies, co-ordinates county extension programs and offers educational programs to farms, e.g. meetings, short courses.

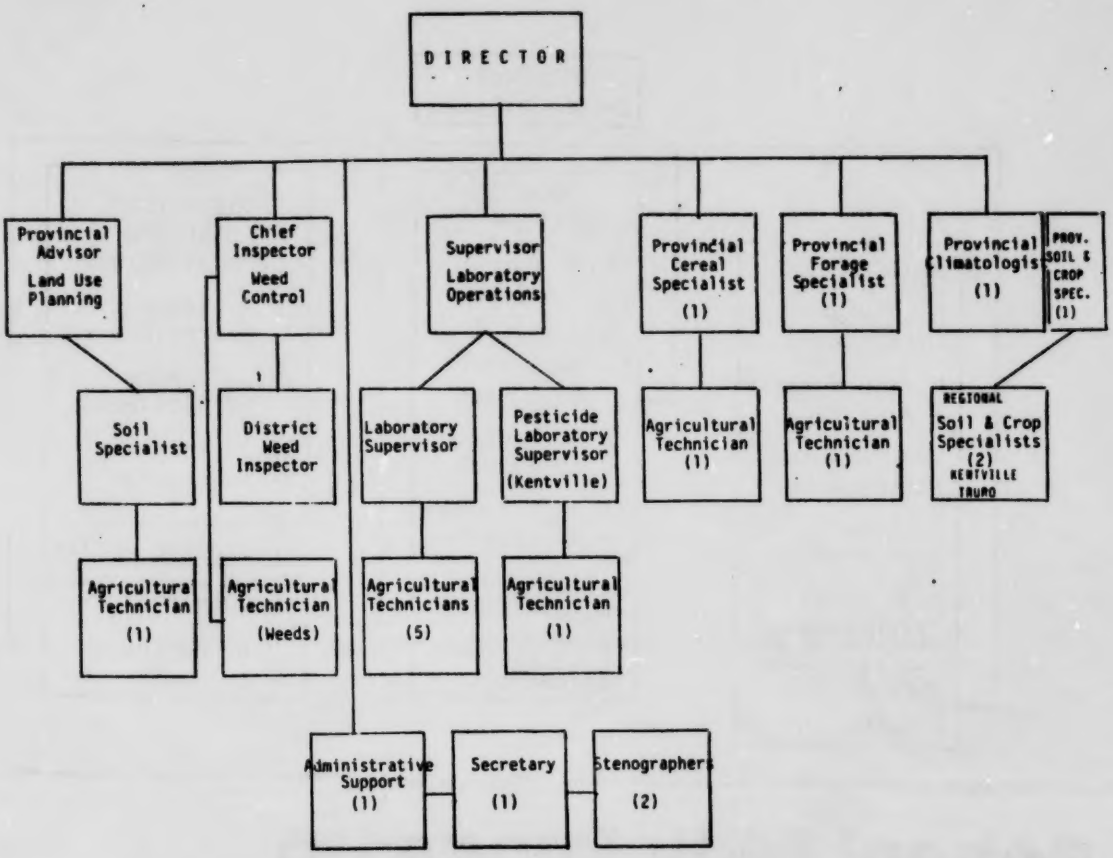
HOME ECONOMICS DIVISION

Provides extension education to rural Nova Scotia including 4H, womens institutes and farm women to develop leadership and homemaking skills. The division is also responsible for food education program and development an awareness and understainding of the Nova Scotia Agricultural Industry and the legislation of Nova Scotia food commodities.

4-H RURAL YOUTH DIVISION

Works with rural youth through voluntary local leadership and members, co-ordinates on a regional or provincial basis, rallies, tours, exhibitions, camp exchanges, etc.

SOILS AND CROPS BRANCH



Director - J. D. Johnson
Secretary - Catherine Dale
Prov. Weed Control Specialist - G. Donald Palfrey
District Weed Inspector - John P. Thomson
Prov. Cereal Specialist - Dwane R. Mellish
Prov. Soils & Crops Specialist - James B. Goit

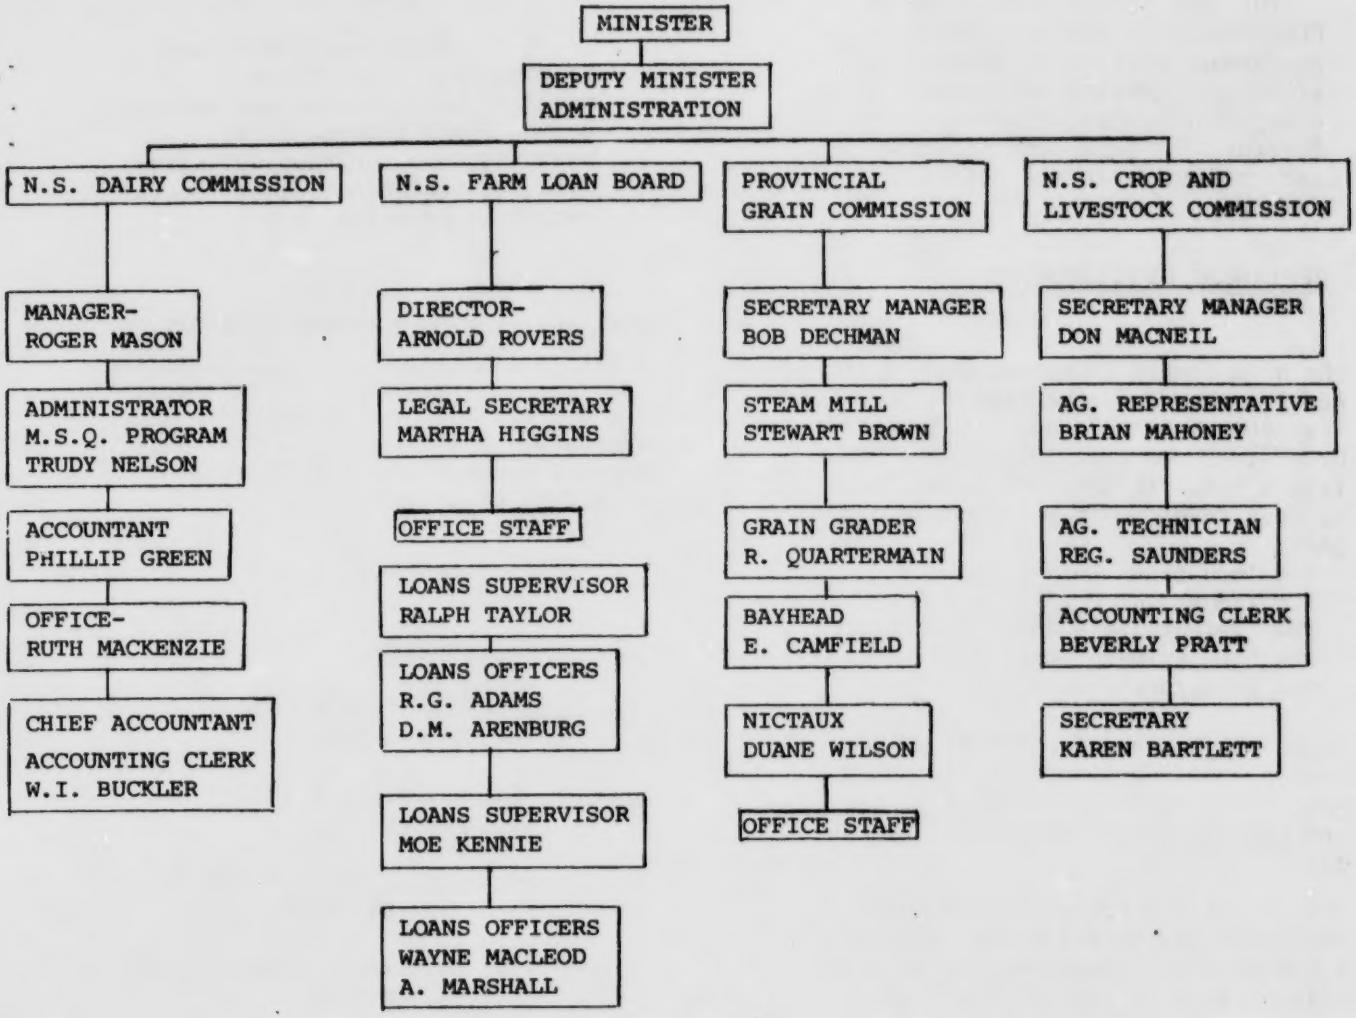
COMMISSIONS AND BOARDS

NOVA SCOTIA DEPARTMENT OF AGRICULTURE AND MARKETING



AGRICULTURAL DEVELOPMENT & CREDIT SERVICES

Provides farmers with low interest loans for the purpose of acquiring farms and/or farm development programs. The Board also administers the ARDA, LAND PURCHASE and LEASE, INTEREST SUBSIDY and INTEREST FORGIVENESS PROGRAMS. ADDRESS- P.O. BOX 550, TRURO, B2N 5E3 TELEPHONE: 895-1571 Ext. 377.

N·S· Department of Development

THE NOVA SCOTIA DEPARTMENT OF DEVELOPMENT is the provincial government department responsible for planning and encouraging development in Nova Scotia. The following programs are applicable to the forest industry:

RESOURCE DEVELOPMENT

The Nova Scotia Resources Development Act was passed by the Legislature of Nova Scotia in 1971 and proclaimed by Order-in-Council in 1972. This legislation empowers the Nova Scotia Resources Development Board to make loans under:

The Industrial Loan Act
The Industrial Development Act
The Agriculture & Rural Credit Act
The Forest Improvement Act
The Fishermen's Loan Act.

Loans may be made for farms, primary food processing plants, boats, fish processing plants, timberlands, saw and planing mills and tourist facilities. owever

However, loans for manufacturing, wholesale and retail trade, service industries and construction, are not within the authority of the Board.

RURAL INDUSTRY PROGRAM (RIP)

The Rural Industry Program is a grant incentive program which assists the development of industry in Nova Scotia. The program helps Nova Scotians outside the Halifax-Dartmouth Metro area purchase capital assets relating to the establishment, expansion or modernization of their business operations. Eligible capital assets include land, buildings (including leasehold improvements), machinery and equipment.

TRADE EXPANDION PROGRAM (TEP)

The program was established to encourage Nova Scotia manufacturers to seek and realize national and international business opportunities not eligible for assistance under federal marketing programs.

SMALL BUSINESS DEVELOPMENT CORPORATION (SBDC)

The Small Business Development Corporation makes financing available to small enterprises wishing to start up, expand or modernize.

N·S· Workers Compensation Board

Worker's Compensation is basically a mutual accident assurance scheme. The Worker's Compensation Act of Nova Scotia is the statute which provides for coverage and protection through worker's compensation. The Worker's Compensation Board (WCB) is a corporate body established under the authority of the statute to administer and develop all aspects of worker's compensation in the province of Nova Scotia.

Its main objectives, therefore, are to serve Nova Scotia employers and employees in the function of providing worker's compensation insurance coverage and in the prevention of accidents.

Main Offices:

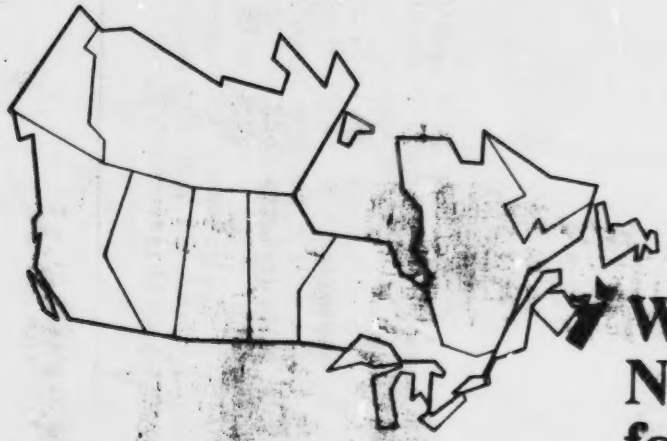
Conducts research, development, and marketing programs to tie science and technology together to stimulate economic development in the province.



Canada

Working with Nova Scotia's food industry

The Department of Agriculture's mandate is to provide assistance to the food and agricultural sector of the economy in maximizing its contribution to both the growth and development of the Canadian economy and the resolution of world food problems. In order to fulfill this role, the Department is responsible for three principal client groups: producers, processors, distributors, wholesalers and retailers; and consumers. Services are aimed at providing an economic environment conducive to exploitation of opportunities by the private sector in a manner which assures a dependable supply of safe, nutritious food at reasonable prices to consumers, and equitable returns to producers and processors.

The following are the Acts which are administered by the Department of Agriculture:

Advance Payments for Crops Act
Agricultural Products Board Act
Agricultural Products Cooperative Marketing Act
Agricultural Products Marketing Act
Agriculture Stabilization Act
Animal Disease and Protection Act
*Appropriation Acts
Canada Agricultural Products Standards Act
Canada Grain Act
Canadian Dairy Commission Act
Canagrex Act
*Criminal Code
Crop Insurance Act
Department of Agriculture Act
Experimental Farm Stations Act
Farm Credit Act
Farm Improvement Loans Act
Farm Loans Interest Rebate Act
Farm Products Marketing Agencies Act
Farm Syndicates Credit Act
Feeds Act
Fertilizers Act
*Financial Administration Act
Fruit, Vegetable and Honey Act
Grain Futures Act
Hay and Straw Inspection Act
Humane Slaughter of Food Animals Act
Inland Water Freight Rates Act
Livestock and Livestock Products Act
Livestock Feed Assistance Act
Livestock Pedigree Act
Meat and Canned Foods Act

Canadian Forestry Services

The Canadian Forestry Service (CFS) engages in a number of major research activities to help the provinces and industry effectively manage and use our forest resources. It researches ways to improve forest productivity including studies of soil, fertilizers, genetics, insect and disease control and tree biology. Methods are sought to increase forest yields and improve harvesting and reforestation practices. Economic studies are made of forest resources, forest industries and forest products marketing. Research is conducted on properties and behaviour of wood, protection of wood in use, chemical composition, pulping processes and packaging.

Forestry & Forest Products

If you are in the forestry and forest products industry, the federal government provides industry development support that includes federal-provincial development agreements, incentive programs, information, research and technical assistance.

Industry Development Support

With a series of federal-provincial forestry subsidiary agreements, the government assists the forestry industry through reforestation, silviculture, construction of access roads and timber salvage. In addition, the federal government has provided federal shared-cost grants to modernize pulp and paper plants.

Information and technical assistance are provided to you by the Canadian Forestry Service through research and development projects on new and improved growth, harvesting and production techniques.

The forest industry also benefits from support to institutes such as the Forest Products Laboratories, the Forest Engineering Research Institute of Canada and the Pulp and Paper Research Institute.

Assistance is also provided through programs that encourage the development of forest biomass as a substitute for petroleum: capital cost-sharing under the Forest Industry Renewable Energy Program and the Energy from the Forests Programs of research and development on further uses of forest materials as an alternative energy source.

The Co-operative Overseas Market Development Program, funded jointly by the federal government, the Government of British Columbia and the B.C. Council of Forest Industries, promotes lumber exports.

The Department of Industry, Trade & Commerce (ITC) is responsible for stimulating the establishment, growth and efficiency of the manufacturing, processing and tourist industries in Canada and for the development of export trade and external trade policies.

Its first priority is to help the Canadian industrial and business communities take advantage of new scientific and technological advances. Whether for small businesses or large corporations, the department contributes towards improving the product or services, increasing productivity and expanding markets at home and abroad. If offers assistance to Canadian business people and industrialists through a wide variety of programs and services. The department provides information, expert advice and, in many cases, financial assistance.

ITC has regional offices in:

St. John's, Newfoundland;
Halifax, Nova Scotia;
Fredericton, New Brunswick;
Charlottetown, Prince Edward Island;
Montreal, Quebec;
Toronto, Ontario;
Winnipeg, Manitoba;
Regina, Saskatchewan;
Edmonton, Alberta; and
Vancouver, British Columbia.

Program for Export Market Development

The object of this program is to increase the export of Canadian products. This is done by providing incentives in the form of repayable contributions for approved expenses involved with marketing the product. The project must be approved by the department and contributions are repayable only if a contract is received. For more information, contact Program Office (Export Market Development), Department of Industry, Trade and Commerce.

The department provides advice and assistance to companies on mineral development and carries out in-depth studies and analyses on resource development. They administer the Emergency Gold Mining Assistance Act; advise on, and regulate the use of explosives; offer technical and scientific advice on mineral, metal and fuel extraction and processing and do routine testing of Western and Maritime coal.

Energy, Mines and Resources

They also serve as a clearing house for the latest scientific and technological mining data; produce and make available land maps, aeronautical charts, photo maps and population maps maps; catalogue and make available new geological findings; provide up-to-date information on the energy resources of the sedimentary basin of western and northern Canada and research soil, clay and sand supplies for urban planners and builders. In addition, they catalogue the availability of such building materials as clay, gravel and sand; provide satellite and airborne remote-sensing imagery; supply information on the earth's magnetic fields; provide laboratory facilities for the geophysical instrument industry and make available information on gravity and earthquakes.

The Forest Industry Renewable Energy Program (FIRE), a part of the National Energy Program, is a capital cost sharing program designed to encourage the substitution of wood residues and other biomass for fossil fuels in the generation of energy. The aim of the program is to conserve fossil fuels.

Under the federal program a total of $288 million in incentives is available to industrial, commercial and in-stitutional establishments across Canada, to convert or install energy facilities using wood residue, municipal waste, agricultural waste, industrial waste (if acceptable at the municipal waste receiving facility) peat and other biomass.

For additional information contact:

FIRE Program Secretariat

Conservation and Non-Petroleum Sector
Energy, Mines & Resources Canada
580 Booth Street, Ottawa
Ontario K1A 0E4

The Atlantic Energy Conservation Investment Program (AECIP), a part of the National Energy Program, is designed to accelerate energy by private enterprise in the Atlantic provinces.

The five-year program funded by the Government of Canada is intended for industry, business, and privately-owned institutions (institutions which are not federally, provincially or municipally owned). AECIP is aimed at encouraging significant energy conservation projects in an area of Canada where there are currently few substitutes to imported oil to satisfy energy needs.

ACCELERATED CAPITAL COST ALLOWANCE

Federal Tax Incentive — for energy recovery and alternative energy sources.

This incentive is an accelerated capital cost allowance designed to encourage business and industry to reduce energy waste, to decrease its dependence on oil, and to switch to renewable energy resources.

Environment Canada

Environment Canada protects Canada's air, water and land resources and brings together major federal government services related to fisheries and environment management.

Environment Canada provides technical advice to the fish processing and handling industries; marketing and management services to the fishing industry; scientific and charting services for marine transportation; resources and management and engineering information; weather forecasts and technical and scientific information on all aspects of forestry and wood use; rural property management and development technical advice.

Information on weather and climate is provided throughout Canada by Fisheries and Environment Canada's Atmospheric Environment Service. As well as daily weather reports, forecasts and severe weather warnings (frost, hail, storm) are issued from weather offices throughout the country available through radio, television and newspapers to the general public.

Detailed information on climate conditions throughout Canada, such as average and extreme precipitation, temperature, sunshine and wind data are readily available, as are special consulting services.

The Nova Scotia Grain Marketing Board

There are over 700 growers of grain in Nova Scotia

They produce 50,000 tonnes of grain, which include:

- **milling wheat**
- **barley**
- **corn**
- **feed wheat**
- **oats**
- **soybeans**
- **rye**

The Nova Scotia Grain Marketing Board:

—Markets all grains grown in Nova Scotia;

—Administers advance payments (federal and provincial); AND

—Encourages development of integrated cereal management (I.C.M.) on all grains.

SEC'T/MGR. LESTER SETTLE
PRES.DONALD DOWNE

For nearly 90 years, the Federation has been the voice of the Nova Scotia farmer uniting the 14 County Chapters of the Federation of Agriculture and 15 commodity groups, including Turkey, Milk, Cattle, Chicken, Egg & Pullet, Goat, Cream, Mink, Fox, Pork, Sheep, Strawberries, Tobacco and vegetables, Potatoes and Grain.

The Federation provides leadership, management, secretarial and accounting services for these groups, as well as providing services for the Rural Beautification Association; Nova Scotia Milk Foundation; Dead Stock Services; and other co-ordinating activities as the Director Training Program.

S5 AGRICULTURAL COMPUTERS

Dairy Data Canada Ltd.

Dairy Data Canada Ltd. provides a fully automated system which records milking information and controls feed dispensed to individual cows in a milking parlour. The system automatically maintains lactation records and daily feed requirements for each cow.

For more information contact:
Dairy Data Canada Ltd.
1378 Bedford Hwy., Bedford.. 835-9322

Ag-Disk - Computer System Evaluator

This system is now being offered in the States by Apple, IBM, and Radio Shack dealers to farmers and ranchers.

The system helps to identify what hardware (if any) is needed for your operation and the type of programs.

The five minute program helps identify operational areas where computerization carries the greatest benefits. Managerial and production information are entered by each producer and specific recommendations are provided in printout form.

For more information on the Ag-Disk Computer System Evaluator and Computer Program Demonstrator, contact:

Harris Technical Systems

S14 CANFARM INCORPORATION

I.S.T. - CanFarm Inc.

The CanFarm Record Service is an up-to-date, computerized system that provides a set of comprehensive, inter-related financial reports to help grasp the overall situation as well as delve into details.

There are approximately 210 farms using the service in Nova Scotia.
Packages offered are:
(1) Data Input Options:
-Journal
-Farmrite (One-Write)
-Chequemate
-Micro-computer
(2) Selective Report Options:
-Balance Sheet and Income Statement
-Enterprise analysis
-Lot analysis
-Physical quantities
-Labour/Payroll Reports
(3) General Ledger Analysis
(4) Cashflow Forecaster
(5) Loan Calculator

In Nova Scotia, there are 5 service agencies that offer I.S.T. CanFarm Inc. to clients.

S21 Satellites

The future uses of satellites will include relay alarms of property break-ins to your local police station and disaster warnings to your wrist radio. Some day , shopping services, library books, and market reports will be available.

CONSUMER AWARENESS PROGRAMS

C1 Beef Information Centre

The Beef Information Centre has been formed as a service to the consumer. It was established by the beef producers of Canada to provide information on all aspects of the beef industry.

It is the desire of the Beef Information Centre to provide necessary material to Home Economics teachers to aid them in their teaching. We also endeavor to keep the consumer informed on such matters as buying beef more economically, beef grades and cooking beef correctly.

Information may be obtained by writing to:
Home Economist
37 Pictou Rd., Truro..... 895-0450

C23 Nutrition Education

Sponsored by the Nova Scotia Milk Foundation, Box 734, Truro.. 893-2293

Nova Scotia Milk Foundation provides innovative workshops that make nutrition education easy to teach, ready to use and fun to learn in the classroom. Teachers receive:
-a background for teaching nutrition
-learning activities
-nutrition resource materials

For more information, contact:

S25 School Apple Program

The School Apple Program is a voluntary program operated by Scotian Gold and their producer-members in co-operation with local fruit wholesalers. Its objectives are the following:
(1) to encourage better eating habits for N.S. school children.
(2) to promote N.S. apples, etc.

Scotian Gold Co-operative Ltd.
Box 370, Kentville 678-2191

S24 School Milk Program

The objective of the program is to [illegible] consumption of milk by Nova Scotia's school students.

The Nova Scotia Department of Agric. & Marketing pays dairies a subsidy on behalf of the students for unflavoured milk delivered by the dairies and consumed by the students while at school.

The program is available to all schools in Nova Scotia as listed in the Directory of Schools in Operation 1983-84 (N.S. Dept. of Education). Participation in the program is voluntary.

Information can be obtained from:
School Milk Program
[illegible]: David Smith
Box 550, Truro
[illegible]

Switchback to Milk Promotion

The Switchback to Milk Program is jointly sponsored by the Nova Scotia Milk Producers and the Nova Scotia Fluid Milk Processors Association.

This program was set up because it was felt that School Milk promotion was an area for increased sales of fluid milk. It is aimed at school children who are the consumers of today and tomorrow.

Other promotions are aimed at consumers in general to sell milk and dairy products such as; recipes and food sampling demonstrations.

Increased fluid milk sales benefit both producers and processors. It is a means of avoiding penalties for over production and there is a potential to increase quotas overall.

For more information, contact:
[illegible]

S48 INSURANCES

Crop & Livestock

N.S. Crop & Livestock Insurance Commission

The Crop & Livestock Insurance Program helps farmers stabilize income when crop and dairy livestock losses occur.

The following are the insurance plans in effect:

(1) Spring Grain
(2) Winter Grain
(3) Tobacco
(4) Corn (silage, grain)
(5) Pea & Bean (processing)
(6) Lowbush Blueberries
(7) a. Tree Fruit (apples, pears)
    b. Tree Insurance
(8) Strawberries
(9) Forage
(10) Dairy Livestock

In 1984, approximately 25,000 acres are insured worth $9 million, and the Dairy Livestock Plan covers 13,100 animals worth over $18 million.

S51 MEAT INSPECTION

Federal

Federal Meat and Poultry Inspection

Meat is guaranteed to be wholesome and fit for human consumption if it has been inspected and passed by a federal government meat inspector.

Agriculture Canada
Livestock and Poultry Inspection Operations

Kentville Agricultural Centre 678-0808

Agriculture Canada
Livestock and Poultry Inspection Operations

Box 368, Truro 893-3311

c/o Larsen Packers
Berwick 538-8060

Antigonish Poultry
RR 1 Antigonish 863-2546

Meat inspection is not to be confused with meat grading. Inspection as indicated determines the fitness of meat and poultry products for human consumption. Grading determines quality as for example Canada A, B, C, D or E. The amount of fat in each grade is indicated by the numbers 1 to 4, with the highest figure indicating the most fat.

S52 Provincial

New Meat Inspection (N.S.) Act

This new Act will be available to abattoir owners on a voluntary basis and will apply to red meats only.

The antimortem and postmortem inspection will be done by five to six inspectors, all overseen by the Chief Veterinarian Inspector.

The main purpose of the program is to ensure the health of the animal before slaughter, and that the environment in which slaughter takes place is clean and healthy. This will ensure the consumer of the best possible red meat available in Nova Scotia.

If the owner of the abattoir accepts the program, he could then have the option of having his meats graded.

Normally, there is no charge for the inspection or grading services.

Truro-East End Mini Mart

S56 N.I.P. (National Identification Program)

The N.I.P. System is designed to replace all other systems of grade identification which existed in the various provinces.

Two main reasons for identifying Grade cattle are:

(1) To identify cows for the purpose of cow testing.
(2) To identify the daughters of registered sires for the purpose of sire proving.

Those milk producers who are enrolled on R.O.P. or D.H.A.S. in the province are eligible to enroll cattle on the N.I.P. Program.

The advantages are:

(1) Cows identified as to sire and dam allows the owner to plan a structured breeding program within his herd.
(2) N.I.P. females have realized increased sale prices.
(3) Allows for more sires to be tested.
(4) N.I.P. females can qualify for purebred status after awhile.

For more information contact:

S59 N.S. RURAL BEAUTIFICATION

Nova Scotia Rural Beautification
Box 784, Truro 893-2293

Sponsored by:
Nova Scotia Department of Agriculture
Nova Scotia Federation of Agriculture
Co-op Atlantic

The new program is divided into six sections as outlined below:
(1) N.S. Youth Group Competition
(2) Community Facility Competition
(3) Rural Cemetery Improvement Competition
(4) Home Improvement Competition
(5) Flower Garden Competition
(6) Community Pride Grants

The aim of Rural Beautification is to encourage rural people to take pride in their communities, to stimulate individuals to improve their surroundings, and in general, to enhance the natural beauty of Nova Scotia.

S67 RACE TRACKS

Nova Scotia Horse Racing Commission
2nd Floor, Queen's Square, Dartmouth
424-7727

The Nova Scotia Horse Racing Commission is appointed under the provisions of the Nova Scotia Horse Racing Commission Act. It has the power to govern, direct, regulate, and control horse racing in Nova Scotia.

Its activities include holding hearings and inquiries, conducting investigations, licensing racing participants, making and enforcing rules and regulations, employing and supervising race officials and promoting horse racing.

Apples	2,850,000 bu.	11.6	3.36
Pears	50,000 bu.	3.7	1.07
Blueberries	19.5 million lbs.	37.1	10.75
Strawberries	4.0 million qts.	7.6	2.20
Cranberries	430,000 lbs.	2.3	0.67
Honey	560,000 lbs.	0.7	0.20
Maple Syrup	14,000 gal. eq.	0.7	0.20
Greenhouse Products	1,777,000 sq.ft.[3]	4.4	1.28
Feed Grains	52,190 tonne	260,000 tot.utilization	n.a
Farm Cash Receipts $000	239,254	1.3	0.38

1) A ratio of 1.00 only represents "net self-sufficiency" if provincial per capita consumption is the same as national per capita consumption and if Canada has an even trade balance for that commodity. Since Canada is a large exporter the provincial "net self-sufficiency" for agricultural products as a whole is greater than 38% (also Nova Scotia's "net self-sufficiency" for food is in the area of 100% with the inclusion of the large fishing industry's output).

2) Census of Agriculture 1981

3) 1982
